

V19 Portable Pneumatic Pressure Pump V1.0

- ✓ Easy operation
- ✓ Pressure up/down smoothly
- ✓ Vacuum to pressure range

Overview

The V19 Portable Pressure Pump from -0.095kPa to 6MPa is a high-precision pressure calibration device with an integrated vacuum/micro-pressure/medium-pressure design, specifically developed for rapid calibration of pressure instruments in industrial sites and laboratories. It offers superior durability and sealing performance compared to hand-clamp type pressure pumps. By combining lever pressurization with spiral fine adjustment.

Features

Robust and durable

Optimized sealing structure minimizes leakage risks and ensures long-term stability.

Easy Operation

Lever pressurization and spiral fine-tuning enable effortless and efficient pressure generation.

Quick connection

M20×1.5 female quick coupling, easy to connect and disconnect without wrench.

Specifications

Model	V19
Pressure Range (bar)	-0.95~25
Medium	Clean Air
Pressure Port	M20×1.5 female
Dimensions (mm)	260L×240W×135H
Weight(kg)	2.5

Services and accessories

1. Service support

- After-sales support: 1year warranty, 48 hours response to maintenance.
- Customized services: more ranges user defined
- Technical support: operation video and online customer services

2. Accessories included

Item	Description	Quantity
Connection hose	500mm flexible hose, 140bar, M20x1.5 male to female connector	1pc
O-rings	ID ϕ 12X2.5 for connection thread use	10pcs
Packing case	Hard carrying case for pump V19	1pc

Adapters (Optional)

Using M20×1.5 male thread as the base standard, they enable mutual conversion between different specifications to ensure compatible adapters for all types of equipment.

M20×1.5 to	M20×1.5 F/M	G1/2 F/M	NPT1/2 F/M
	M16×1.5 F/M	G3/8 F/M	NPT3/8 F/M
	M14×1.5 F/M	G1/4 F/M	NPT1/4 F/M
	M12×1.25 F/M	G1/8 F/M	NPT1/8 F/M
	M10×1 F/M	ZG1/2 F/M	ZG3/8 F/M
	ZG1/4 F/M	ZG1/8 F/M	ϕ 6 Barbed Fitting

Accessories (Optional)

Items	Note	Reference
Adapter set box	36 pieces of adapter	

Air-Liquid Separator	Separates and filters residual liquid and impurities during pressure calibration.	
CWY300 Digital Pressure Calibrator	Range (-1~2500) bar Accuracy 0.02%, 0.05%, 0.1 %	
CWY122 Digital Gauge	Range (-1~2500) bar Accuracy 0.02%, 0.05%, 0.1 %	

Warranty: 1 year.
