

Manual hydraulic pump

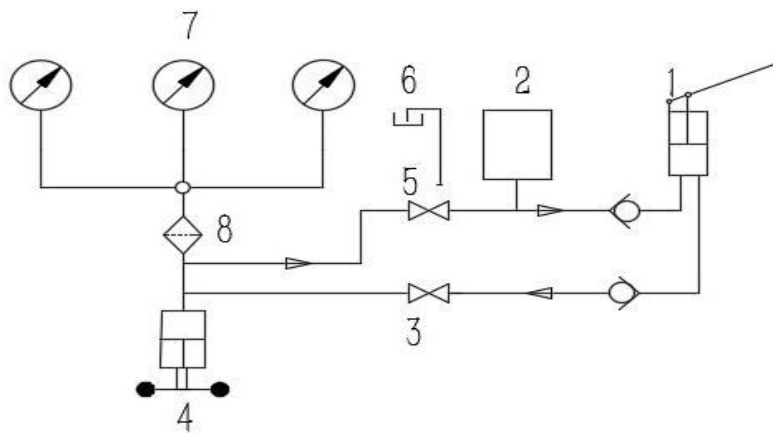

Shaanxi Creat Wit Technology Co., Ltd

● Configuration structure

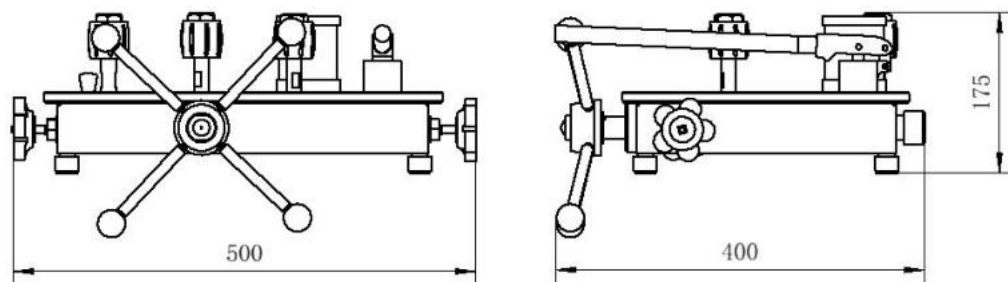

- 1、prim-pump
- 2、oil cup
- 3、stop valve
- 4、regulator handle
- 5、vent valve
- 6、dirty oil/water cup
- 7、connection
- 8、effluent discharge/filter mesh

● Pipeline connection

● Size

● **Specification**

1. Model: CW8400
2. Range: (0~60/70) MPa; (0~100) MPa; (0~160) MPa;
3. Medium: Oil compatible with copper, aluminum alloy, stainless steel (304), butadiene rubber (usually sebacate) / purified water
4. Size: 500mm×400mm×175mm
5. Weight: 20kg
6. Connection: M20*1.5 F

Note: During long-distance transportation, try to empty the liquid medium in the oil cup.
